Module description

1. when 5V power supply, CNA or CNB 1, 2 pin input 5V power, CNA and CNB 33, 34 pin output 3.3V.

2. when 3.3V power supply, CNA or CNB 33, 34 pin input 3.3V power, CNA or CNB 1, 2 pin vacant.

3. BLVDD BLGND is backlight input power, must input 5V and GND.

4. BL_CNT Backlight control pin, PWM wave control adjustable brightness.
